

Rapid Set

Rapid Setting Floor & Wall Tile Adhesive

- Rapid Setting Formula
- Walk on and grout after 3 hours
- 3mm – 12mm bed depth
- Simply mix with water
- Interior and Exterior use

Rapid Set is a fast setting cement based floor and wall tile adhesive that has a smooth buttery consistency when simply mixed with water. Rapid Set has been developed for fixing ceramic, quarry and terracotta tiles to solid substrates such as sand/cement screed and concrete. Its rapid setting capability allows for light foot traffic and grouting after 3 hours. Rapid Set is suitable for use internally and externally and is unaffected by frost after setting.

* When mixed with Flexmaster additive, Rapid Set is suitable for fixing a wider range of tiles to a wider variety of substrates.

Suitable for application to:	Suitable for fixing:
<ul style="list-style-type: none"> • Sand/Cement Screed • Concrete • Tilebacker Boards • Gypsum Plaster • Concrete Brick/Block 	<ul style="list-style-type: none"> • Ceramics • Terracotta • Quarry

Water Addition:	Approximately 5 litres of water to 20kg Rapid Set
Coverage:	20kg will cover 5 – 6m ² at 3mm thin bed application
Pot Life at 20°C:	Approximately 30 minutes
Grout After:	3 hours
Colours:	Grey & White
Pack Sizes:	5kg, 10kg and 20kg packs
Specification Category:	Conforms to BS EN 12004 Class C1 F T
